CELEBRATING THE HOCKEY WIZARD MAJOR DHYAN CHAND

NATIONAL SPORTS DAY SPECIAL

National Sports Day is celebrated on August 29 every year to commemorate the birth anniversary of hockey legend Dhyhan Chand Singh. The day was included in the list of celebratory days in India for the first time in 2012.

A legend of Indian hockey, Dhyhan Chand is considered to be one of the best players to have ever played the sport. His career spanned from 1926 to 1948 and ended as one of the greatest hockey players of all time after having represented India in 185 matches and scored over 400 goals during this period. Such was Dhyhan Chand's mastery of the game and so dazzling was his ball control that he earned the epithets 'Hockey Wizard' and 'The Magician'.

Dhyhan Chand started playing hockey seriously during his stint with the British Indian Army and between 1922 and 1926, he

competed in numerous Army hockey tournaments and regimental games. While he retired as a Major in the Punjab Regiment of the Indian Army in 1956, the Indian Government went on to confer the Padma Bhushan, third-highest civilian

award, the same year.

India and Olympics

Star of the Indian hockey team that dominated the sport in the years before World War-II, the prolific Dhyhan Chand played a key role in India's three consecutive gold hauls at the

Olympic Games—in 1928, 1932 and 1936.

When the newly-formed Indian Hockey Federation (IHF) decided to send a team for the 1928 Olympics in Amsterdam, Dhyhan Chand was called for the trials. He made it to the Olympic team and hit the ground running. Dhyhan Chand scored 14 goals in five matches to become the top-scorer of the tournament, with the Indian hockey team emerging undefeated to win the gold medal.

No trials were needed for Dhyhan Chand when the Indian team for the 1932 Olympics was selected and this time the squad included his brother Roop Singh as well.

At the Los Angeles Games, the Indian field hockey scored 24 goals in a match against the US, a record that stood firmly for seven decades, 10 off Roop Singh's stick and eight from

Dhyhan Chand.

In the subsequent 1936 Olympic Games, Dhyhan Chand headed to Berlin as captain of the Indian hockey team. He ended the Berlin Games with a total of 11 goals in five matches. In all, he scored 37 goals in 12 matches at the Games across three editions and three Olympic gold medals.

Dhyhan Chand passed away on December 3, 1979. He will always be remembered as one of the greatest hockey players. In his honour, the National Stadium in New Delhi was renamed as the Dhyhan Chand National Stadium in 2002.

On August 6, 2021, Prime Minister Narendra Modi tweeted that he has been getting many requests from citizens across India to name the Khel Ratna Award after Major Dhyhan Chand.

CAREERS IN ANIMATION INDUSTRY

Mandar Dattatraya Digrajkar

Have you ever experienced the thrill of watching your name on the big screen of a blockbuster film? Not yet? Come... build your career in the most exciting and creative profession of animation and visual effects.

Storytelling, through various animation forms has always been a tradition in India. Precursors to modern animation such as shadow puppets, slide shows entertained audiences before the advent of the cinema. However, post-independence, in the '50s, the Indian animation industry took its baby steps into the field by creating educational, public awareness short films. Animation enthusiasts in small groups evolved into studios and since then, in last 70 years, India has come a long way to become one of the best animation creator at global level.

The biggest advantage of Indian animation are its creative

strength and cost-effectiveness. That is why global industry leaders outsource their creative work straight away to Indian production houses which are young, well-prepared, and have an international focus to explore the field with passion, with strong grip and understanding of the evolving and changing business.

The Indian animation industry grew to establish more than 300 studios in last two decades. This

tremendous growth is not in just numbers, but India's animation arena has established itself as a hub for global content production. Many animation (Intellectual Property) IPs and movies have a considerable amount of visual effects produced in India for the global production houses, as the Indian animation industry gained recognition and respect worldwide on quality, technology and creativity.

The beauty of this profession is that everyday is a challenge, as one has to deal with varied tasks everyday. Artists have to concentrate on their core talents, be flexible to take over tasks of various complexities and styles, and always have an open eye to see the developments around them and update themselves.

Today, animation and visual effects is one of the most popular

RANGOJI BAPU

FORGOTTEN MARTYR OF EIGHTEEN FIFTY SEVEN

Rangoji Bapu, who belongs to a historical town Satara in Maharashtra, has become synonymous with the revolt of 1857 and they are complementary to each other. There was a golden era of history hidden beneath the ruins of Satara. Lord Dalhousie had come to India in the year 1848, whom the English historians had honoured with the title of 'Empire Builder'. He had imperialism in his blood and unstinting faith in colonialism. As soon as he landed on the shores of India, he had declared, "I will strengthen the land of India." He had come to India to strengthen the land and to strengthen the throne of the British Empire. He was not satisfied by merely tying up Punjab and Burma in chains of British slavery, as yet the ruins of ancient kingdoms remained. He had the apprehension that in future any person could rise from these ruins, tombs may stand up to take revenge against the injustices of the British. Satara's ruins were one of them.

The Former ruler of Satara, Appa Saheb had adopted Chhatrapati Pratap Singh to be his heir but the British did not agree to it claiming that he was, after all, Appa Saheb's brother and not his son. Thus, they acquired Satara on the plea that it had no legal heir. The person who was most disheartened by this act was Rangoji Bapu Gupte.

The former rulers of Satara decided to send this loyalist to London to apprise the higher authorities of the East India Company about the pathetic story of Satara. Resolute to his goal, Rangoji Bapu left for London with the notion that whether or not he succeeds, he would at least give his best try. He started from Bombay on September 12, 1839 and reached London in December end.

Rangoji Bapu rummaged through the Leeds Hall Street. He was even forced to spend his last penny as the fee of the British Barristers. He went from pillar to post but the point blank reply he got from the officers was, "Go away, we will not give Satara back."

While in London, Rangoji got the opportunity to meet

UNSUNG HEROES

Ajimullah Khan, a man of extraordinary talent, who was in London to help Nana Dhudhu Pant Peshwa claim his pension. Both faced rejection. Their religions were different, their castes were different but their aims were the same. Offended by the injustice of the British, they both discussed and pledged to retaliate.

'India's Mutiny of 1857', the writer of this prolific manuscript, Veer Vinayak Damodar Savarkar writes, "If Rangoji Bapu had come here to revive the ghost of the throne of Satara, Ajimullah Khan was here to destroy the ghost of the throne of the Peshwa. They were here also to gather more information about the Britishers who had brought about the complete ruin of their country."

The ember of revenge for injustice which lit in their hearts before they reached London grew further with the disappointment they faced there each day. It may not be there in the pages of history about what vows they had taken there to bring down the British Empire or what plan they had come up with when they came back to their land but it is a fact and indivisible part of history that the war of Independence occurred in 1857. In the same way, it is an irrefutable fact that the plan for revolutionary sacrificial blaze was made by Rangoji Bapu Gupte and Ajimullah Khan in London.

Rangoji returned directly to Satara from London and dedicated himself to the pre-

construction work of the grand building which was to be built at Brahmavarta while Ajimullah Khan went on a tour wanting to know people's view abroad on the question of India's independence.

Whilst in England, Rangoji Bapu Gupte devoted his complete attention to learning English language. He might not have succeeded in speaking the language fluently but he could write it correctly. He wrote two letters to the East India Company in English dated 26 May, 1847 and 11 November, 1847 to apprise them about the whole situation. It was at that time that he got the news of the sad demise of Chhatrapati Pratap Singh; he was frustrated but remained dutybound. He continued the case, in the name of Shahu Pratap Singh the foster son. While he was constantly putting in all his efforts during these years, he was in such a pitiable state that even if he had begged, one would have given him alms. His brother Ravji Bapu tried to collect money for his home coming but he was arrested. This period of six years long stay in London of Rangoji resulted in huge debts for his brother. He returned in 1854.

The year 1857 marked the awakening of India and in the month of June, Parli, a place near Satara got ignited with the fire of independence. Satara was the place where, in the year 1674, Shivaji was coronated by Ganga Bhatt. The great warriors

like Santaji, Dhannaji, Nikaji and Baji, bowed before the throne, for prosperity of which Bajirao I dedicated his valour. The same may have got pulverized by Dalhousie but that desire for independence and the ardent interest to attain it through duty bound struggle was there. After his return from London, Rangoji Bapu Gupte immersed himself in the task of lighting the dormant fire to achieve independence. The British officials had the notion that the spark of revolt which was instilled for over a month amongst the people by Rangoji Bapu in the fort of Parli had led to the transformation.

The British also had an apprehension that it was under Rangoji Bapu's guidance and influence that people of Satara, Yavteshwar, Mahabaleshwar had conspired for rebellion against the authority and annihilation of the British.

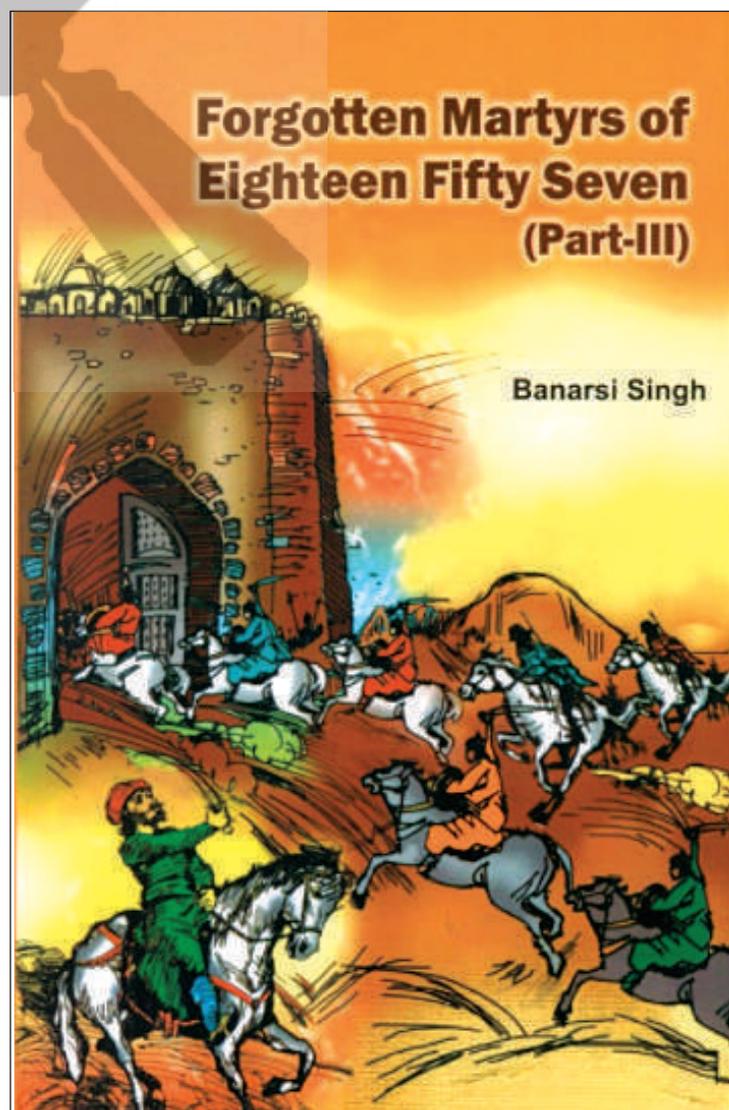

While in London, Rangoji along with Ajimullah Khan had vowed to enchant the Goddess of Freedom with independent rituals. Rangoji had well remembered it on his return. He was in correspondence with

Nana Saheb of Kanpur. Through a fixed plan, the soldiers of the army for independence consisting of representatives of Brahmins, Moulvis and revolutionary army of north India had penetrated the British forces at Pune, Satara, Belgaon, Dharwad, Mumbai and Hyderabad, etc. and were igniting the fire of freedom. Rangoji Bapu, of course, was playing a fundamental role in this.

It was fighters like Rangoji Bapu whose efforts were yielding the outcome that from Mysore to Vindya Mekhala the pledge was taken that, "when the north rises, south will rise too". It was not as easy as that to erase the lines of destiny from the forehead of India and it eventually took 90 more years.

The information available about him says that Rangoji Bapu was fair and a brilliant man. His efforts for freedom made him achieve a far greater stature which has made his name immortal.

CAREERS IN ANIMATION INDUSTRY

and booming industries in India with substantial presence on internet, social media, television, film and OTT for all ages across the geography. As audiences are now watching Indian animation and visual effects content globally via OTT platforms (such as Netflix, Amazon prime etc.) and big-banner releases, the need of the hour for Indian animation and visual effects industry is to have skilled professionals, artists, storytellers to compete with the content from the rest of the world. With the growing internet accessibility and availability of devices, customers are spending more time on streaming digital content. Viewers are so much engaged with high-quality productions with stunning visual effects and realistic animation that filmmakers are including more animation and visual effects shots into films and hence the demand for animation has expanded many folds. In addition, the demand for animation content to power immersive experiences such as Augmented Reality (AR) and Virtual Reality (VR) is growing exponentially. What has changed since the beginning of digital era in India? Earlier the tools were expensive and skill set was limited. Today, tools have become more accessible and even free for student community. At advanced level, technology of cloud computing is playing a key role in animation and visual effects which is more effective and efficient as it reduces the time and cost of post-production. In addition, production work has become global with countries offering tax incentives, subsidies, financial support, skilled work force etc. Data shows that more and more international studios like MPC,

The Mill, Mikros, DNEG, Mr. X, Digital Domain, Framestore, etc., are all setting up in India. These studios are always in search of the best talent to match the demand of work.

On the other hand, there are other aspects of this profession, like working as independent animation filmmaker or visual effect artist. Leaving aside the dedicated high-end and expensive softwares, there are also small-scale yet effective apps available and these are becoming first choice for many freelancers and small-scale studios.

As an enthusiast, one must take this profession seriously and most importantly keep oneself well prepared for all kind of creative challenges, as opportunities are plenty for skilled ones. A candidate must see this profession as a long-term career and not as a shortcut to fame. **The five important 'C's... Critical thinking, Communication, Creativity, Command over the tools and Commitment are the key to success.**

Required educational and professional qualifications

There are different types of career opportunities for aspiring candidates, and if one has skills like drawing, focus, creativity, and communication, then they can flourish in the world of animation and visual effects filmmaking.

Most of the animation colleges have certain eligibility criteria, for UG and PG courses, which the candidate has to qualify.

- ♦ For under graduate courses like B.Des. (Bachelor of Design), Diploma or B.Sc. in Animation, the candidate must pass 10+2 in any stream with 45% from a recognized board.
- ♦ For Post graduate courses

like M.Des. (Master of Design), the candidate must have a degree with the specialization they wish to pursue in the masters.

Institutions offering course in this field

In India, there are various Government and private institutes which offer courses in animation and related topics. Candidates looking for long-term career in this field can undergo one of the programs provided by these government and private institutes.

- ♦ National School of Design (NID), Ahmedabad.
- ♦ Industrial Design Centre (IDC), IIT, Mumbai
- ♦ Satyajit Ray Film and Television Institute, (SRFTI), Kolkata.

These (and other) national level institutes have their own entrance examinations for selection i.e. DAT (Design Aptitude Test) of NID, CEED (Common Entrance Examination for Design for IIT's, JET (Joint Entrance Examination) for SRFTI. These tests are specifically developed to understand candidates' creative thinking in design.

Other than these national level institutes, many state level institutes also provide similar programs in animation and visual effects including Gujarat University, (Ahmedabad), MGR Government Film and Television Training Institute, (Chennai), Tilak Maharashtra Vidyapeeth, (Pune) etc.

To cater to the huge demand of animation and visual effects industry, many private film schools like Toonz Academy, Whistling Woods and universities like Sri Sri University, Kurukshetra University, Lovely Professional University also provide UG and/or PG courses, though, private ones may have higher fee structure compared to government run institutes. More information about all the institutes are available on various social media platforms.

Present and future career prospects in the field

All roads lead to India when it comes to this profession. India is always at the forefront of creative developments, from the beginning of digital revolution to mixed reality of AR & VR.

Current state of this industry in India is very robust as movies or any video content are filled with significant visual effects. Apart from media & entertainment, animation and visual effects have become an essential part of gaming, web series, documentaries, architecture & construction, education, healthcare & life science, manufacturing, government &

defense, AR & VR and more.

Even in this difficult time of COVID-19, the animation industry stood up to the situation and fought with the challenges to come up with strong solution of remote/work from home jobs. Many studios quickly set up the required infrastructure to ease such remote work. Now the scenario is, many leading animation studios are in favor of work from home culture, even after the lockdown ends.

The upcoming technology of 'Unreal 5 engine' is set to allow real time interaction with high-resolution visuals than ever before. Visual effects studios are exploring ways to use AI (Artificial Intelligence) technology, innovative new production techniques, such as shooting live action against LED screens projecting CG backdrops rather than using chroma, to put visual effects upfront in the production pipeline.

Some of the latest trends, technologies and workflows include:

- a. Cloud based post production pipeline
- b. Advanced photogrammetry in which, softwares are replacing tedious manual work of modeling, texturing, UV mapping
- c. Virtual production
- d. Process of creating and manipulating Digital humans/creatures
- e. LED walls and projection of real images to replace chroma shooting, which was a must for VFX shooting

Designing animation and VFX is extensive teamwork. Even for creating a simple animation film one needs a team of skilled professionals and hence as a fresher, it is important to understand the entire workflow from pre-production to post-production. As per interest and skills, one can begin one's career at various levels like storyboard and concept artist, 2D- 3D animator, texturing artist, effects generator, lighting and compositing artist, camera match-move artist, simulation artist etc.

Opportunities for Growth

In today's world, 3D animation is no longer restricted to films or TV series. It has spread its wings in the fields of education, medicine, architecture, games, AR & VR, etc. The dynamism of emerging 3D software is highly customizable to suit the various needs of the world.

According to the recent reports, the global VFX market accounted for USD 11,333 million in 2018 and is expected to reach USD 23,854 million by

2025, at a Compound Annual Growth Rate of around 11.4% between 2019 and 2025.

Similarly, the Indian market is also exciting and has enormous opportunity in itself. A rise in traditional TV viewership and a significant rise in digital users over the decades, has paved the way for more Indian users to access and enjoy content more readily.

This will further create an increase in the demand for digital entertainment. It is estimated that there will be around 300 million new users in India by 2025. India's animation and VFX industry was valued at around 50 billion Indian rupees in 2020, with estimates of growth up to 125 billion rupees by 2023. This is a compound annual growth rate of around 35 percent for the industry. Employment for special effects artists and animators is projected to grow by 4 percent from 2019 to 2029, about as fast as the average for all occupations. This projected growth will be due to increased demand for animation and visual effects in video games, movies, and television. One indication of this is, animation, VFX have become part of the syllabus in visual art studies, enabling artists and creative talents to be better prepared than ever to help take the Indian animation industry to new heights.

Today, opportunities are more for generalists, who have more than one skillset in the VFX pipeline. VFX studios are not only recruiting young fresher artists for a specific department, but also those who have adequate knowledge of other departments in the pipeline. It is win-win situation for both, for the employer and the employee for betterment of the production and quality.

It is most important for any candidate to get hands-on experience on the live projects and understand the teamwork, quality of work, pressure of delivering task in time for taking ones career to new heights as team leader—VFX supervisor-project leader - film director and so on.

If one rigorously follows the five C's, sky is the limit to achieve anything in this creative profession, and YES! You can manifest your virtual dreams into reality!

PM Shri Narendra Modi's address to the Nation on 75th Independence Day

- Today, on the pious festival of the Amrit Mahotsav of freedom, the country is bowing to all its freedom fighters and brave heroes who continue to sacrifice themselves day and night in the defense of the nation. The country is remembering every personality, including the revered Babu, who made freedom a mass movement, Netaji Subhash Chandra Bose, who sacrificed everything for the freedom, or great revolutionaries like Bhagat Singh, Chandrasekhar Azad, Bismil and Ashfaqulla Khan; Rani of Jhansi Lakshmbai, Queen Chennamma of Kittur or Rani Gaidinliu or the valour of Matangini Hazra; the country's first Prime Minister Pandit Nehru ji, Sardar Vallabhbhai Patel, who integrated the country into a united nation, and Baba Saheb Ambedkar, who determined and paved the way for the future direction of India. The country is indebted to all these great personalities.
- While we celebrate our freedom today, we cannot forget the pain of partition that still pierces through the heart of all Indians. This has been one of the biggest tragedies of the last century. After attaining freedom, these people were forgotten too soon. Just yesterday India has taken an emotional decision, we will henceforth commemorate August 14 as "Partition Horrors Remembrance Day" in the memory of the victims of partition. Those who were subjected to inhuman circumstances, suffered torturous treatment, they could not even receive a dignified cremation. They must all remain alive and never get erased from our memories. The decision of celebrating "Partition Horrors Remembrance Day" on the 75th Independence Day is a befitting tribute from every Indian to them.
- Along with modern infrastructure, there is a great need for adopting a holistic and integrated approach in infrastructure construction. In the near future, we are going to launch the National Master Plan of Prime Minister 'Gati Shakti' which will be a huge scheme and fulfil the dreams of crores of countrymen. This scheme of more than 100 lakh crores rupees will result in new employment opportunities for lakhs of youth.
- It is a moment of pride for us that because of our scientists, we were able to develop two Make in India COVID Vaccines and carry out the world's Largest Vaccine Drive.
- It was extremely difficult to get vaccines during such a major crisis, with pandemic plaguing the entire world. India might or might not have received it and even if it had received the vaccine there was no certainty of getting that in time. But today we can proudly say that the world's largest vaccination programme is being run in our country. More than 54 crore people have received the vaccine dose. Online systems like Cowin and digital certificates are attracting the world today.
- Our doctors, nurses, paramedical staff, sanitation staff, scientists engaged in developing vaccines, millions of countrymen engaged with the spirit of service during this Corona

global pandemic also deserve praise from all of us.

- India's young generation has made our country proud at the Tokyo Olympics. All such athletes are amongst us today. They have not only won our hearts but also inspired our young generation.
- The way India has kept the stoves burning for the poor's house by providing free food grains to 80 crore countrymen continuously for months during the pandemic is not only astonishing to the world but also a matter of discussion.
- It is true that fewer people have been infected in India as compared to other countries; it is also true that in comparison to the population of other countries of the world, we managed to save more citizens in India but it is not something to be proud of! We cannot rest on these laurels. To say that there was no challenge, will become a restrictive thought in the path of our own development.
- Our goal is to develop a nation where we not only have world-class infrastructure but also move ahead with the mantra of 'Minimum government, maximum governance'.
- We should not limit the occasion of 75 years of Indian independence to just one ceremony. We must lay the groundwork for new resolutions and move forward with new resolutions. Starting from here, the entire journey of the next 25 years, when we celebrate the centenary of Indian independence, marks the Amrit period of creation of a new India. The fulfilment of our resolutions in this Amrit period will take us to the hundredth anniversary of Indian independence with pride.
- Starting from here, the entire journey of next 25 years, when we celebrate the centenary of Indian Independence, marks the Amrit period of creation of a new India. The goal of 'Amrit Kaal' is to ascend to new heights of prosperity for India and the citizens of India. The goal of 'Amrit Kaal' is to create an India where the level of facilities is not dividing the village and the city. The goal of 'Amrit Kaal' is to build an India where the government does not interfere unnecessarily in the lives of citizens. The goal of 'Amrit Kaal' is to build an India where there is world's every modern infrastructure.
- Amrit Kaal is of 25 years. But we don't have to wait for long to achieve our goals. We have to start now. We don't

have a moment to lose. This is the right time. Our country also has to change and we as citizens have to change ourselves too. We also have to adapt ourselves to the changing era. We have started with the spirit of 'Sabka Saath, Sabka Vikas, Sabka Vishwas'. Today I am requesting from the ramparts of the Red Fort that 'Sabka Saath, Sabka Vikas, Sabka Vishwas' and now Sak ka Prayas are very important for the achievement of our goals.

- In this Bharat ki Vikas Yatra, we have to ensure that we meet our goal of building an AatmaNirbhar Bharat when we celebrate 100 years of India's Independence.
- Just as we have made electricity accessible to 100% households, and have made authentic efforts to construct toilets in 100% households, similarly, we now have to move ahead with the goal of achieving saturation of schemes, and, for this, we do not have to keep a distant deadline. We have to make our resolutions come true within a few years.
- Now, we have to move even further. 100% villages should have roads, 100% households should have a bank account, 100% beneficiaries should have Ayushman Bharat card, 100% eligible persons should have gas connection under Ujjwala scheme and 100% beneficiaries should have Aawas.
- We have to move ahead with a mindset of cent percent achievement. Till now, no thought was given for our street vendors, who sell their goods on tracks, footpaths and carts. All these colleagues are now being linked to the banking system through the SVA Nidhi scheme.
- We have to move forward with the goal of ensuring that every citizen is connected with government's transformative schemes. In the last few years, our government has provided roads and electricity to the villages. Now these villages have been strengthened with optical fibre network data and the Internet.
- I am happy that just within 2 years of Jal Jeevan Mission, over 4.5 crore families have started receiving Nal Se Jal; this is our main achievement when the benefit reaches the last mile citizen.
- Poshan is one of the key focus of our government. The government has also been working on preventive healthcare, and building health and

wellness infrastructure.

- We need to provide hand holding to the backward categories and sectors. With the concern of fulfilling the basic needs, reservation is being ensured for the Dalits, Backward Classes, Adivasis and the poor people from general category. More recently, in the field of medical education, reservation has also been ensured for the OBC category in the All India Quota. By formulating a law in Parliament, the right to make their own list of OBC has been given to the states.
- Be it rice available at ration shop, rice available in mid-day meal, rice available through every scheme will be fortified by the year 2024.
- The delimitation commission has been constituted in Jammu and Kashmir itself and preparations are also going on for the assembly elections.
- Ladakh is witnessing a new transformative phase where the government is focusing on building world-class infrastructure. On one hand, Ladakh is witnessing the creation of modern infrastructure, while on the other, 'Sindhu Central University' is going to make Ladakh a centre of higher education.
- There is a huge potential in the fields of tourism, adventure sports, organic farming, herbal medicine, and oil pump in the North East. We have to fully harness this potential and make it a part of the development journey of the country. And we have to complete this work within a few decades of the 'Amrit Kaal'. Giving a fair opportunity to the capabilities of all is the true spirit of democracy. Be it Jammu or Kashmir, the balance of development is now visible on the ground.
- Whether East, North East, Jammu and Kashmir, Ladakh, the entire Himalayan region, our coastal belt or tribal region, these will become a big base for India's development in the future.
- Today a new history of connectivity is being written in the North-East. This is a connectivity of both the hearts and the infrastructure. Very soon the work of connecting all the state capitals of the North-East with rail service is going to be completed.
- Under the Act-East Policy, today North-East, Bangladesh, Myanmar and South-East Asia are also being connected. Due to the efforts made in the past years, now the enthusiasm for the creation of Shreshtha Bharat and long-lasting peace in the North-East has increased manifold.
- We are witnessing a new phase in the developmental journey of our villages. It not only has electricity and water but also nurturing Digital Entrepreneurs. Priority is being given to schemes related to education, health, nutrition, roads, employment, in over 110 aspirational districts of the country. Many of these districts are in tribal areas.
- We have to focus on helping our small farmers. We have to give maximum benefits of the government's schemes to them; be it through DBT or Krishi Rail.
- Kisan Rail can help small farmers with this modern facility to reach far flung

PM Shri Narendra Modi's address to the Nation on 75th Independence Day

- areas on a low cost of produce and transportation. Several products like Kamalam, Shahi litchi, Bhut Jolokiachillis, black rice or turmeric are being exported to different countries of the world.
- ♦ The government is now focusing on welfare of small farmers. 10 crore farmer families have directly received over Rs. 1.5 lakh crore in their bank accounts.
 - ♦ SVAMITVA Yojana is transforming the lives in rural India. Drone is helping our rural citizens to map their land and apply for various schemes/loans online.
 - ♦ Co-operatives are not just a system with a network of laws and rules, but co-operative is a spirit, culture, and a mindset of collective growth. We have taken steps to empower them by forming a separate ministry. We have taken this step to empower the cooperative sector in the states.
 - ♦ In the coming years, we will have to increase the collective power of the small farmers of the country. They have to be given new facilities. We are trying to empower these farmers through SVAMITVA Yojana.
 - ♦ We have decided to celebrate this Amrit Mahotsav of independence for 75 weeks. It started from 12th March and will continue till 15th August, 2023. We have to move forward with new enthusiasm and, therefore, the country has made a very important decision.
 - ♦ During these 75 weeks of the Amrit Mahotsav of Independence, 75 Vande Bharat trains will connect every corner of the country. The pace at which new airports are being built in the country and the UDAN scheme connecting remote areas is unprecedented.
 - ♦ We will have to work together for manufacturing world class products, using cutting-edge innovation and new age technology.
 - ♦ Under the Jan Aushadhi Yojana, the poor and needy are now getting affordable medicines. Over 75,000 Health & Wellness Centres have been built and we are working on a network of hospitals at the block level.
 - ♦ To further increase our developmental progress, we have to focus on our manufacturing and export.
 - ♦ The country has also announced Production Linked Incentive to consolidate our Make in India campaign in the wake of the new economic conditions that have emerged due to Corona. The electronic manufacturing sector stands as an example of the change that is enforced through this scheme. Seven years ago, we used to import mobile phones worth about eight billion dollars. However, now the import has reduced considerably, and today we are also exporting mobile phones worth three billion dollars.
 - ♦ Treading ahead on the path of development, India will have to augment both its manufacturing and exports. You have witnessed, just a few days ago, India launched its first indigenous Aircraft Carrier INS Vikrant for trial in the sea. Today India is making its own indigenous fighter aircraft, its own submarine. Gaganyaan is also slated to hoist India's flag in space. This itself is evidential of our immense capabilities in indigenous manufacturing.
 - ♦ I want to tell the manufacturers - Every product you make is a brand ambassador for India. As long as that product is in use, the buyer will say - yes this is Made in India.
 - ♦ We have to stop the over involvement of government in the form of complex policies. Today, we have abolished over 15,000 unnecessary compliances.
 - ♦ We have introduced tax reforms that will give impetus to Ease of Living and Ease of Doing Business. Good and smart governance is required to implement the reforms. Today, the world is also witnessing how India is writing a new chapter of governance.
 - ♦ To introduce people centric approach in Bureaucracy, we have started Mission Karmayogi and Capacity Building programme.
 - ♦ Today the country also has a new National Education Policy to meet the needs of the 21st century. Now our children will neither stop due to lack of skills nor will they be bound by language barriers. This new National Education Policy is also going to be a great tool to fight against poverty in a way. The basis of winning the war against poverty is also the education, prestige and importance of the vernacular language.
 - ♦ In a move towards strengthening Beti Bachao, Beti Padhao initiative, our daughters will now be able to study in Sainik schools too. Today, be it education or Olympics our daughters are performing tremendously. We have to ensure that they get equal opportunities and they feel safe and respected.
 - ♦ More than eight crore sisters in the villages are associated with Self-Help Groups and they design top-end products. Now the government will also prepare an e-commerce platform to ensure a huge market in the country and abroad for their products. When the country is moving forward with the mantra of being vocal for local, this digital platform will connect the products of women self-help groups with people in far flung areas of the country as well as abroad and it will have far-reaching consequences.
 - ♦ India is not Energy independent. It spends over Rs. 12 lakh crores on importing energy. As we celebrate 75 years of Independence, we have to ensure that India becomes AatmaNirbhar in energy production too.
 - ♦ We are giving equal emphasis to Environmental Security as to National Security. Be it biodiversity or land neutrality, climate change or waste recycling, organic farming, India is progressing in all these sectors.
 - ♦ In this decade of the 21st century, India will further accelerate its efforts towards the Blue Economy. The Deep Ocean Mission is the result of our ambition to explore the unlimited possibilities of the ocean. The mineral wealth which is hidden in the sea, the thermal energy which is in the sea water, can give new heights to the development of the country.
 - ♦ Green Hydrogen is the future of the world. Today, I announce the setting up of the National Hydrogen Mission.
 - ♦ We have to make India a Global Hub for Green Hydrogen Production and Export in the 'Amrit Kaal'. This will not only help India to make a new progress in the field of energy self-reliance but will also become a new inspiration for Clean Energy Transition all over the world. New opportunities from Green Growth to Green Job are opening up today for our start-ups & youth.
 - ♦ India has also made a move towards Electric Mobility and the work on 100% electrification of Railways is also progressing at a fast pace. Indian Railways has set a target of becoming Net Zero Carbon Emitter by 2030.
 - ♦ The country is also emphasizing on Mission Circular Economy. Our Vehicle Scrap Policy is a great example of the same. Today, India is the only country in the group of G-20 countries, which is moving fast towards achieving its climate goals.
 - ♦ India has set a target of 450 GW of renewable energy by the end of this decade - 450 GW by 2030. Of this, the target of 100 GW has been achieved by India ahead of schedule.
 - ♦ Today India is also solving those subject areas, which were hanging fires for decades and centuries. Be it a historic decision to abrogate Article 370, introduction of GST, a system that frees the country from the web of taxes, a decision regarding 'One Rank-One Pension' for our military friends, a peaceful solution to the Ram Janmabhoomi issue, we have seen it come true in a few years.
 - ♦ India's willpower is realizing all the resolutions whether it is the Bru-Reang agreement in Tripura after decades, constitutional status to the OBC commission or the BDC and DDC elections in Jammu and Kashmir for the first time since independence.
 - ♦ The nature of global relations has changed after the Second World War. There is a possibility of a new world order post Corona. The world has seen and appreciated India's efforts during Corona. Today the world is looking at India from a new perspective. There are two important aspects of this perception -- one is terrorism and the other is expansionism. India is fighting both these challenges and is also responding strongly in a restrained manner. Our defense preparedness has to be equally strong if India has to fulfill its obligations properly.
 - ♦ Our youth is the 'Can Do' Generation, and they can achieve everything they set their mind to. Our actions today will determine our future. Our today will set the theme of our 100 years of India's Independence.
 - ♦ I am not a fortune teller, I believe in the fruits of action. I have faith in the youth of my country, I trust the sisters of the country, the daughters of the country, or the professionals of the country. This 'CAN DO' generation can achieve every unimaginable goal.
 - ♦ In the 21st century, no obstacle can stop us from fulfilling the dreams and aspirations of India. Our strength is our vitality, our strength is our solidarity, our vitality is the spirit of nation first - always first. This is the time for shared dreams, this is the time for shared resolve, this is the time for shared efforts... and this is the time to move towards victory.
 - ♦ Today is also the birth anniversary of the great thinker of the country, Sri Aurobindo. His 150th birth anniversary will be celebrated in 2022. Sri Aurobindo was a visionary of India's bright future. He used to say that we have to be as powerful as we were never before. We have to change our habits. We have to re-awaken ourselves.
 - ♦ When Swami Vivekananda used to talk about the future of India, when he used to see the magnificence of Mother Bharati in front of his eyes, he used to say - Try to look into the past as far as possible. Drink the water of the ever-new spring flowing back there, and after that, look ahead. Go ahead and make India brighter, greater & better than ever. In this 75th year of independence, it is our duty to move forward believing in the immense potential of the country. We have to work together for new generation infrastructure; we have to work together for world class manufacturing; we have to work together for cutting edge innovations; we have to work together for new age technology.

■ Single-use plastic items to be phased out by 2022

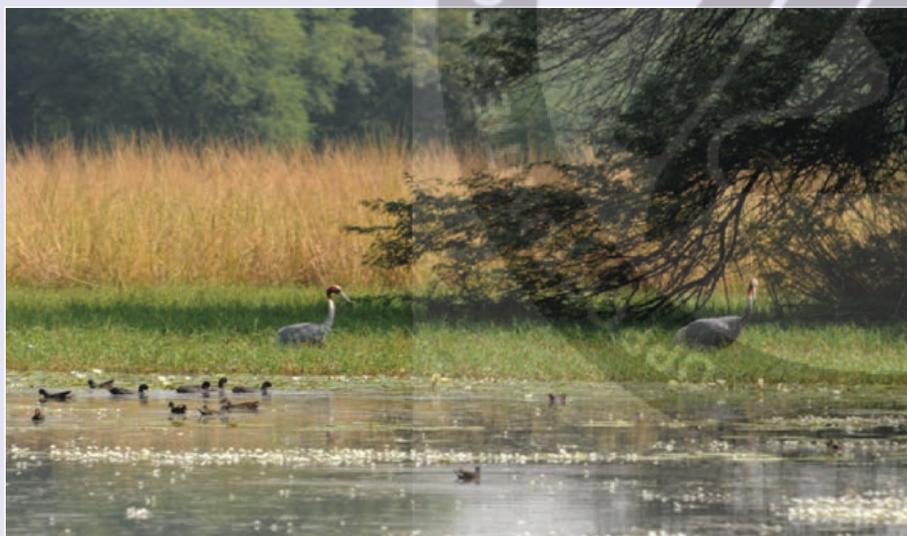

The Government has notified the Plastic Waste Management Amendment Rules 2021 prohibiting identified single use plastic items by 2022. The thickness of plastic carry bags will be increased from fifty microns to seventy five microns with effect from 30th September and to 120 microns with effect from the 31st December of this year. The manufacturing, import, stocking, distribution, sale and use of several single use plastic items will be prohibited with effect from 1st July of next year.

■ India achieves 100 GW installed renewable energy capacity

India has achieved a historic milestone of 100 GigaWatts installed renewable energy capacity. With this, India stands at 4th position in the world in terms of installed renewable energy capacity, 5th in solar and 4th in wind energy. In a tweet, Power and New and Renewable Energy minister R K Singh said, the achievement is an important milestone in India's journey towards its target of 450 GigaWatts by 2030. 100 GigaWatts has been installed, 50 GigaWatts is under installation and 27 GigaWatt is under tendering.

■ Four more Indian wetlands recognized as Ramsar sites

Thol and Wadhvana from Gujarat and Sultanpur and Bhindawas from Haryana have been recognized by the Ramsar secretariat as Ramsar sites. With this, the number of Ramsar sites in India have reached 46 and the surface area covered by these sites now stands at 1 lakh 83 thousand 322 hectares. The aim of the Ramsar list is to develop and maintain an international network of wetlands which are important for the conservation of global biological diversity and for sustaining human life through the maintenance of their ecosystem components, processes and benefits.

■ Taliban claims victory in Afghanistan

The Taliban have taken over the capital Kabul and claimed victory in Afghanistan. A spokesperson for the group told a news network on August 15 that their fighters have seized the presidential palace. They claimed that the government has collapsed and President Ashraf Ghani has fled. There were scenes of panic at Kabul airport as desperate residents try to flee following the seizure of the capital by the Taliban. Taliban's return to rule brought an end to almost 20 years of a US-led coalition's presence in the country. Meanwhile, the United Arab Emirates said on 18 August that it is hosting former Afghan President Ashraf Ghani on humanitarian grounds.

■ World leaders react as Taliban seizes Kabul

US President Joe Biden said he was faced with a choice between sticking to a previously negotiated agreement to withdraw US troops this year and sending thousands more service members back into Afghanistan for the third decade of war. He said he will not repeat mistakes of the past and did not regret his decision to proceed with the withdrawal. He said, American troops cannot and should not be fighting in a war and dying in a war that Afghan forces are not willing to fight for themselves. Germany stopped development aid for Afghanistan after the Taliban swept back into power. French President Emmanuel Macron has said that

Afghanistan must not become a safe haven for terrorists again. British Prime Minister Boris Johnson called the situation extremely difficult and said it is very important the West collectively should work together as no one wants Afghanistan to become a breeding ground for terror. Canadian Prime Minister Justin Trudeau called the situation extremely fluid and exceedingly dangerous. Prime Minister of Italy Mario Draghi vowed all Afghan citizens who assisted Italy's mission in the country would be protected. On the other hand, Russia has decided to keep its embassy in Kabul open. About 100 employees will be moved, to avoid having too much of a presence. China has expressed hope that the Taliban will stand by its commitment of establishing an open and inclusive Islamic Government in Afghanistan and will ensure a peaceful transition of power without violence and terrorism.

■ India evacuates ambassador, officials, citizens from Kabul

India evacuated its ambassador and staff from the embassy in Kabul in a C-17 Globemaster aircraft of Indian Air Force in view of the situation in Afghanistan. 150 people, including diplomats, officials, security personnel, and some stranded Indians, landed at the Hindon airbase near Delhi on 17 August after a brief halt for refueling at Jamnagar in Gujarat. Talking to media persons at Jamnagar, Indian Ambassador to Afghanistan Rudrendra Tandon said that the situation in Kabul is complex and quite fluid. More Indian nationals have also been evacuated.

■ Rs 77.45 crore package for agricultural marketing in NE

The Cabinet Committee on Economic Affairs (CCEA) has approved a revival package of Rs 77.45 crore for revival of North Eastern Regional Agricultural Marketing Corporation Limited (NERAMAC). The package will help NERAMAC to implement various innovative plans namely providing better farming facilities, training to farmers in clusters, organic seeds and fertilizer, post harvesting facilities in order to promote the products of North East farmers in the world market.

■ New Vehicle Scrapage Policy launched

PM Narendra Modi launched the National Automobile Scrapage Policy during the Investors' Summit for Vehicle Scrapping Infrastructure in Gujarat on 13 August. Union Minister for Road Transport and Highways Nitin Gadkari said the new policy is a win-win policy for all the stakeholders and for the country as it will help bring down air pollution which is major concern for all, while boosting the growth of automobile sector, export and will bring competitiveness. The Minister said, the government wants to set up at least one scrapping centre and fitness centre in every district of the country. Such centres will generate more employment opportunities for the youth.

■ Largest ever Indian contingent for Tokyo Paralympic Games

A 54-member Indian contingent has reached Tokyo for the Paralympic Games. They were given a virtual see off by Youth Affairs and Sports Minister Anurag Thakur, Minister of Tourism GK Reddy, and MoS External Affairs and Culture Meenakshi Lekhi. Mr Thakur said, India is sending its largest ever contingent to the Paralympic Games in Tokyo - 54 para-sportspersons across 9 sports disciplines. He said the passion of Para-Athletes shows their phenomenal human spirit. He asked them to remember that when they play for India, 130 crore Indians will cheer for them.

■ India wins 15 medals at World Archery Youth Championships

Prime Minister Narendra Modi has congratulated the Indian contingent at the World Archery Youth Championships in Wroclaw for winning 15 medals including 8 Golds. Indian archers won all their matches in the recurve under-18 section to grab two gold and three bronze medals in the Youth World Championships. The men's team defeated their French rivals 5-3, while the mixed pair followed suit with a 6-2 win over Japan. India also bagged three bronze medals in the women's team, individual and men's individual events for a perfect show by the U-18 (cadet) archers. Overall in recurve and compound sections, India have won 8 gold and a total of 15 medals in their best-ever show in the tournament.

CELEBRATING THE HOCKEY WIZARD MAJOR DHYAN CHAND

Respecting their sentiment, he added, the "Khel Ratna Award will hereby be called the Major Dhyan Chand Khel Ratna Award." The Prime Minister further said that Major Dhyan Chand was among India's foremost sportspersons who brought honour and pride for India. It is fitting that our nation's highest sporting honour will be named after him.

The Khel Ratna Award was instituted in 1991-92 and the first was awarded to India's first-ever Grand Master and a five-time world chess champion Viswanathan Anand. The objective is to honour sportspersons to enhance their general status and to give them greater dignity and place of honour in society. Under it, an amount of Rs. 25 lakh is given as

award for the most spectacular and outstanding performance by a sportsperson over a period of four years immediately preceding the year in which the award is to be given.

Apart from Khel Ratna, India honours its sportspersons with several other awards which are collectively known as the National Sports Awards.

National Sports Awards

National Sports Awards are given every year to recognize and reward excellence in sports. It is an umbrella term used for six sports awards given for performance in different categories. The National Sports Awards function is held on August 29 every year. However, the function has been pushed back this year since the

Dhyan Chand (standing second from left) with the Indian hockey team at the 1936 Berlin Olympics.

India's Olympic contingent for Tokyo 2020 included 127 participants from 18 sports. While javelin thrower Neeraj Chopra won a gold, the silver medals came from weightlifter Mirabai Chanu and wrestler Ravi Kumar Dahiya. Boxer Lovlina Borgohain, shuttler PV Sindhu, the Men's hockey team and wrestler Bajrang Punia clinched bronze medals. For the Tokyo Paralympics 2020, India has sent a 54-member contingent.

Government wants the selection panel to consider the performances of the para athletes competing in the Tokyo Paralympics. The Paralympics began on August 24 and will end on September 5.

Arjuna Award: The Arjuna Award is the oldest among all with the first award being handed out in 1961. To be eligible for the award, one should have experience of four years at the international level with excellence for the year for which the award is recommended. Apart from consistent out-standing performance for four years, one should have also shown qualities of leadership, sportsmanship and a sense of discipline. The awardee is given a statuette, certificate, ceremonial dress and a cash award of Rs. 15 lakh.

Dronacharya Award: This award was instituted in 1985 to honour eminent coaches who have successfully trained sportspersons or teams and enabled them to achieve outstanding results in international competitions. The awardees are given a statuette of Guru Dronacharya, a certificate, ceremonial dress and a cash award of Rs. 10 lakh (regular category) and Rs. 15 lakh (lifetime category).

Dhyan Chand Award: The country's highest award for lifetime achievement in sports is known as the Dhyan Chand Award. It was instituted in 2002. It is given to honour those sportspersons who have contributed to sports by their performance and continue to contribute to promotion and development of sports even after their retirement from active sporting careers. The awardee is given a statuette, a certificate, ceremonial dress and a cash award of Rs. 10 lakh.

Tenzing Norgay National Adventure Award: This is the highest national recognition for outstanding achievements in the field of adventure on land, sea and air. A cash award of Rs. 5 lakh and a certificate of honour is given to the awardees. This award is at par with the Arjuna Award for sporting excellence.

Rashtriya Khel Protsahan Puruskar: With a view to recognising the contribution made to sports development by entities other than sportspersons and coaches, the Government has instituted a "Rashtriya Khel Protsahan Puraskar" from 2009, which has four categories, namely, identification and nurturing of budding/young talent, encouragement to sports through corporate social responsibility, employment of sportspersons and sports welfare measures, and sports for development. The award consists of a citation and a trophy in each of the above mentioned categories. There is no cash award.

Maulana Abul Kalam Azad Trophy: This trophy was instituted in 1956-57. The top overall performing university in the inter-university tournaments is given the Maulana Abul Kalam Azad (MAKA) Trophy, which is a rolling trophy. A small replica of the MAKA Trophy is also awarded for retention by the university.

The Government has also proactively

taken various initiatives to encourage sports culture and sportspersons in India. One such initiative is the **Khelo India** programme. The Khelo India programme has been introduced to revive the sports culture in India at the grass-root level by building a strong framework for all sports played in our country and establishing India as a great sporting nation. The Khelo India scheme identifies and trains players for international sports events such as the Olympics. The new umbrella scheme was launched (in 2016-17) after the merger of existing schemes Rajiv Gandhi Khel Abhiyan, Urban Sports Infrastructure Scheme and National Sports Talent Search System Programme.

Khelo India has twelve components, which aim at achieving the twin objectives of the National Sports Policy 2001—broadbasing of sports and achieving excellence in sports, which in turn will infuse sports culture in the country and enable it to derive benefits that sports offers, namely, holistic development of children and youth; community development; gender equity; healthy nation; national pride; and economic opportunities related to sport development.

The Hon'ble Prime Minister, with a view to make fitness an integral part of our daily lives, launched the **FIT INDIA Movement** on August 29, 2019. The mission of the Movement is to bring about behavioural changes and move towards a more physically active lifestyle. The Movement also aims to encourage indigenous sports, to make fitness reach every school, college/university, panchayat/ village, and to create a platform for citizens of India to share information, drive awareness and encourage sharing of personal fitness stories.

To celebrate Azadi Ka Amrit Mahotsav, FIT India Mission has conceptualized **FIT INDIA FREEDOM RUN 2.0**. The nationwide campaign is on the concept of

"Physical/Virtual Run" in continuum from August 13 to October 2, 2021, to encourage fitness and help us all to get freedom from obesity, laziness, stress, anxiety, and diseases. The concept behind this run is that "It can be run anywhere, anytime!". Aimed at "Jan Bhagidari se Jan Aandolan", the Freedom Run will culminate on Gandhi Jayanti with nationwide Fit India Plog Run.
