RESILIENCE OF THE AGRICULTURAL SECTOR DURING COVID-19 PANDEMIC

Sandip Das

India achieved record foodgrain production along with record procurement of foodgrain from the farmers amidst challenges posed by COVID-19 pandemic. India's agricultural products exports rose sharply during 2020-21. While most of the sectors of the economy were adversely impacted by COVID-19, agriculture and allied sectors witnessed growth in 2020-21 indicating resilience of the sector.

The COVID-19 pandemic, since the beginning of 2020, has adversely impacted lives across the globe. India has been experiencing the adverse impact of COVID-19 spread on the livelihood of millions of people since the nation-wide lockdown was announced in March 2020. The lockdown, which lasted for months, resulted in disruption of transportation as well as other logistics in the agricultural or food value chains. Keeping in mind the critical nature of the agricultural value chain, the government had allowed most

of the agricultural operations outside the purview of lockdowns by putting it under essential services.

Notwithstanding challenges posed by COVID-19 pandemic, India's agricultural and food sector demonstrated its resilience and most of the agricultural

commodities were produced and supplied across the country without any reports of supply disruptions. During the lockdown, essential supplies like cereals, pulses, oilseeds, milk, eggs, poultry products besides fruits and vegetables were largely uninterrupted because of the robust food

value chain in the country.

Agri-allied sector witnessed growth in 2020-21

While major sectors of the economy were adversely impacted by lockdown and depressed consumer sentiments, the agriculture and allied sectors were the bright spots amidst decline in performance of other sectors. The National Statistical Office under the Ministry of Statistics and Programme Implementation in the Provisional Estimates released on May 31, 2021, pegged the growth of the farm sector (agriculture, forestry & fishing) at 3.6% in 2020-21. The Economic Survey 2020-21 tabled earlier this year had noted that agriculture had emerged as the bright spot, while contact-based services, manufacturing and construction were hit the hardest by the coronavirus pandemic. "Rural demand has remained resilient, empowered by the government's thrust on the rural economy and infrastructure in previous years, through a bouquet of

CAREER OPPORTUNITIES IN REGIONAL RURAL BANKS

Organizations announce their vacancies as per their needs. However, in our country few recruitment examinations are held on yearly basis. These include Civil Services examination for specified vacancies in Central Government and examination for recruitment in officers and clerical cadre in public sector banks and for similar positions in Regional Rural Banks. The Civil Services examination is conducted by Union Public Service Commission whereas the banking examination is conducted by the Institute of Banking Personnel Selection.

Since independence banking has come a long way in our country. In the government banking sector two events have been game changers. One was nationalization of 14 and 6 private sector banks in 1969 and 1980 respectively and the other was the establishment of

Regional Rural Banks network in 1975. Although nationalization of banks resulted in massive bank branch expansion, it was felt that our rural population was not adequately served by banks and that more bank branches were required in rural hinterland considering 70% of our population resided in the villages. The famous Narsimham Committee recommended another tier of banks in rural areas. The Government of India

came out with an ordinance on September 26, 1975 and Regional Rural Banks Act was passed in the year 1976. The first RRB was established in Moradabad, Uttar Pradesh. Like mergers between nationalized banks, consolidation took place between RRBs and after restructuring and consolidation, presently there are more than 40 RRBs spread over the country. In the financial year ending March, 2020 the total deposit of RRBs

stood at Rs. 478,547 crore, advances at Rs. 2,86,919 crore and profit was Rs. 2,203 crore.

As the term suggests, RRBs operate in designated areas with regional presence. These banks are owned by Central Government, state government in which the bank operates and the sponsoring bank with a shareholding of 50%, 15% and 35% in that order. Each RRB is sponsored by a public sector bank. For example Dakshin Bihar Gramin Bank is sponsored by Punjab National Bank and Rajasthan Marudhara Gramin Bank is sponsored by State Bank of India.

Since their inception RRBs have played significant role in financial inclusion and strengthening the rural economy.

To meet the manpower requirements of this huge network of banks an integrated selection process is conducted. Clerical level positions in RRBs have the name of office assistant (multipurpose). Officers vacancies exist in various scales and are filled in through internal promotion

RESILIENCE OF THE AGRICULTURAL SECTOR DURING COVID-19 PANDEMIC

reforms for both farm and non-farm sectors," the Economic Survey (2020-21) has stated.

Even the monsoon rains were more than the 'normal' level during June-September 2020 period and the rainfall was adequate during the post-monsoon period (October-December). It led to the filling of reservoirs and recharging of groundwater tables and aquifers. The Government took a policy decision to keep agriculture related activities outside the purview of lockdowns and inherent resilience and coping ability of rural economies resulted in the growth of farm sector during COVID-19 pandemic-hit 2020-21 (April-March). The farm sector was largely insulated as sales of fertilisers rose to 677 lakh tonnes in 2020-21 from 617 tonnes reported in the 2019-20 financial year.

Record sowing & output of foodgrains

In terms of sowing of crops, the crop acreage (both Kharif and Rabi) in 2020-21 was higher at 1,798 lakh hectare compared to 1,719 lakh hectare reported in 2019-20. The factors including normal monsoon rains, lockdown exemptions, pro-active role of the Government to procure rice, wheat, cotton, oilseeds and pulses and higher price realizations by the farmers resulted in record sales of tractors (9 lakh units) in 2020-21.

In the year 2020-21 (as per third advance estimates), total foodgrain production in the country is estimated at record 305.44 million tonnes, which is close to 8 million tonnes more than the production of food grain of 297.5 million tonnes reported during 2019- 20.

Spike in grain, pulses, oilseeds procurement

Notwithstanding challenges posed by COVID19, there was a significant jump in procurement of foograin and other agricultural commodities by Government agencies such as Food Corporation of India (FCI) and farmers' cooperative NAFED, thus ensuring remunerative prices to farmers.

The procurement of wheat in the ongoing Rabi Market Season (RMS) - 2021-22 is continuing smoothly in the key producing states and a record 42.87 million tonnes (Mt) of wheat has already been purchased from the farmers under Minimum Support Price (MSP) operations. In the previous year, FCI and other state agencies had purchased 38.99 million tonnes (Mt) of wheat from the farmers. According to Department of Food and Public Distribution data as on June 15, 2021, around 48.20 lakh farmers, mostly in Punjab, Haryana, Madhya Pradesh,

Rajasthan and Uttar Pradesh, have been benefited from the ongoing RMS procurement operations with MSP value of Rs. 84,682 crore directly transferred to their bank accounts.

In case of paddy, procurement in the Kharif season - 2020-21 reached an all-time high level, surpassing the previous high of 77.34 Mt in KMS 2019-20. About 123.44 lakh farmers have already benefited from the KMS procurement operations with MSP value of Rs. 1,56,681 crores transferred to their bank accounts.

The main purpose of procurement from the farmers by FCI and State Government agencies is to ensure supplies of rice and wheat under the National Food Security Act (NFSA), where around 81 crore beneficiaries receive 5 kg of rice or wheat per head per month at highly subsidised rate of Rs. 3 (rice) and Rs. 2 (wheat) per kg respectively. The economic cost (Minimum Support Price, transportation, storage and other expenses) for FCI for procurement of rice and wheat is Rs. 39.99 per kg and Rs. 27.39 per kg respectively. The gap between the rate at which beneficiaries get grains under NFSA and actual cost of acquisition is reflected in the food subsidy budget of the Central Government. Around 60 million tonnes (Mt) annually are allocated to States for distribution through the Public Distribution System under NFSA.

In a bid to deal with the economic hardships faced by millions of people due to COVID-19, the government has also made special provisions of 5 kg of additional grain per head per month free along with NFSA entitlements under Pradhan Mantri Garib Kalyan Anna Yojana during April-November (2020) and April-November (2021).

Based on recommendation of the State Governments, the National Agricultural Cooperative Marketing Federation of India (NAFED) and other agencies, on behalf of the Government, carries out procurement of pulses and oilseeds under MSP operations (Price Support Scheme) across key growing states. NAFED procured 10.78 Mt of pulses and oilseeds of Kharif Marketing Season (2020-21), Rabi Marketing Season (2021) and summer season (2021) from farmers in Tamil Nadu, Karnataka, Maharashtra, Telangana, Gujarat, Haryana, Madhya Pradesh, Uttar Pradesh, Odisha, Rajasthan and Andhra Pradesh.

The Government through nodal agencies has procured 8.45 lakh tonnes of moong, urad, tur, gram, masoor, groundnut, sunflower seed, mustard seed and soyabean having MSP value of Rs. 4,409 crore benefitting more than 5.03 lakh farmers in Tamil Nadu, Karnataka, Andhra Pradesh, Madhya Pradesh, Maharashtra, Gujarat, Uttar Pradesh, Telangana, Haryana and Rajasthan under

Kharif 2020-21 and Rabi 2021.

Besides, the Government has approved procurement of 1.74 lakh metric tonnes of copra from Andhra Pradesh, Karnataka, Tamil Nadu and Kerala. Till June 15, 2021, more than 5,089 tonnes of copra with MSP value of Rs. 52.40 crore has been procured from 3,961 farmers in Karnataka and Tamil Nadu during the crops season 2020-21.

Spike in agricultural products exports

While the COVID-19 pandemic created logistical challenges for movement of goods across the globe, India's exports of agricultural and allied sector products witnessed a significant jump in 2020-21 compared to previous fiscal. During 2020-21, the export of agricultural and allied products (including marine and plantation products) rose to USD 41.25 billion, indicating an increase of more than 17% compared to previous fiscal. In terms of Rupees realization, the agricultural goods exports increased by 22.62% to Rs 3.05 lakh crore in 2020-21 as compared to Rs. 2.49 lakh crore reported during 2019-20.

India's agricultural and allied products imports during 2019-20 were USD 20.64 billion, and the corresponding figures for 2020-21 are USD 20.67 billion. Despite COVID-19 pandemic, India's balance of trade in agriculture has improved by 42.16% from USD 14.51 billion to USD 20.58 billion.

Substantial growth has been witnessed in the export of cereals. The export of non-basmati rice grew by 136.04% to USD 4,794.54 million in 2020-21 compared to the previous fiscal. The wheat exports rose by 774.17% to USD 549.16 million and other cereals (millets, maize and other coarse gains) by 238.28% to USD 694.14 million in 2020-21.

Other agricultural products, which registered spike in exports in 2020-21, were oil meals (USD 1,575.34 million- growth of 90.28%), sugar (USD 2,789.97 million - growth 41.88%), raw cotton (USD 1,897.20 million - growth 79.43%), fresh vegetables (USD 721.47 million - growth 10.71%) and vegetable oils (USD 602.77 million- growth 254.39%) etc. The biggest market for India's agriculture products were the United States, China, Bangladesh, the UAE, Vietnam, Saudi Arabia, Indonesia, Nepal, Iran and Malaysia.

Overall, India's agricultural and allied sectors, on which more than half of the country's population depend for their livelihood, showed strength and resilience during COVID-19 pandemic and continue to provide food security to crores of people besides exporting a substantial portion of the produce.

CAREER OPPORTUNITIES IN REGIONAL RURAL BANKS

process and direct recruitment. In case of officers direct recruitment is made normally in Scale I, II and III.

Who can apply

For the office assistant (multipurpose) and officers in scale-I posts, graduates in all disciplines are eligible. However for officers (scale-I) preference is given to degree holders in Agriculture, Horti-culture, Forestry, Animal Husbandry, Veterinary Science, Agricultural Engineering, Pisciculture, Agricultural Marketing and Cooperation, Information Technology, Management, Law, Economics or Accountancy. Also required is proficiency in local language as prescribed by the participating RRB. Working knowledge of Computer is desirable. Officers in scale II are known as managers, they should have passed graduation with minimum 50% marks and should possess experience of 2 years or more in a bank or financial institution. To become eligible for officers in scale III (senior manager), requirements are same as that for scale II but the experience requirement is of minimum five years. Subject preference applies to scale II and III. For specialist officers' posts like chartered accountant marketing officer, treasury manager, agricultural officer and law officer relevant qualifications are required with 1 or 2 years' experience as prescribed.

One may apply for multiple positions subject to restrictions prescribed.

How the selection process works

Applicants for the posts of office assistant (multipurpose) and officers in scale I, will have to first appear in a preliminary examination. The test for office assistants will include reasoning and numerical ability with 40 questions in each. For scale I the test shall comprise of reasoning and quantitative aptitude each

with 40 questions. In both the cases this paper is to be attempted in 45 minutes.

On the basis of performance in preliminary examination, candidates are called for main examination in which sections of reasoning, computer knowledge, general awareness and English/Hindi language are found in examinations for both the positions with section of numerical ability for assistants and quantitative aptitude for scale I officers. Candidates can choose any one from English/Hindi language section.

Successful candidates in main examination are called for interview. There is no interview for the post of assistants. For others merit shall be determined by adding marks obtained in the main examination and interview.

Test description

Quantitative Aptitude: This section will comprise of data interpretation which is easier to do. You may be required to read a graph and then answer multiple questions based on the graph. Also questions relating to profit and loss/ discount, partnership, time and work, time and distance etc. may be asked.

Reasoning: In this section a candidate will find questions on seating arrangement, blood relation, sense of direction, order and ranking, coding-decoding, alphabet arrangement/ rearrangement, puzzle, syllogism etc. In the questions of reasoning you've to derive your logic from the stated information and not from the general perception.

Computer Knowledge: Some of the questions in this segment will relate to computer use and some may be general. You may expect questions relating to operating systems, open source, Microsoft word, Power point, Excel, internet, networking, information security etc. A few questions may be on shortcut key combinations. This section may be easily prepared

with information available on internet.

English/Hindi: The language section has a choice for the candidate to take either English or Hindi. Whichever language you choose, you need to be strong in vocabulary and grammar. Pattern for both the languages is almost similar. There will be comprehension in which you'll be required to answer para based questions. Then you'll have to find mistakes (if any) in part of sentences, arrange sentences in a meaningful order, answer questions on word meanings, synonyms, antonyms, fill in the blanks, choose correct sentences from a set etc.

General Awareness: There is no defined syllabus for the general awareness section but you should make as comprehensive preparation as possible. Questions in this section may relate to important events (summits/sports/awards etc.), famous personalities, authors, sportspersons, books, countries (their capital and cities).

You need to be a regular reader of national newspaper, It would be better if you make diary notes of things of importance from the test point of view. Also refer to any good year book and a general knowledge manual/ digest.

Important things to note

- For assistants and scale I officers position, you must have a higher rank to figure in merit list to become eligible to appear in the main examination. Your strong preparation for the preliminary examination shall also help you do well in the main examination for the sections common in both.
- There is the system of negative marking. For every wrong answer one fourth of the mark is deducted. Going by this the odds are in favour even though you are not sure about the correct answer. But instead of indiscriminately ticking any option for the questions you don't know the answer of, adopting elimination approach is advised. Selection approach is the one where you are sure about the correct answer and mark that answer. In elimination approach you filter out the wrong answers which appear to be improbable and choose one of the remaining options. In this way you increase the chances of choosing the correct answer.
- Speed is of paramount importance in such tests. In many cases candidates are well prepared to attempt the test but are not able to attempt all the questions as their speed is slow. This slow speed can be attributed to taking more than required

time in reading or understanding the questions and/or in thinking to figure out the correct answer. Also it happens that in the beginning of test candidates approach the paper in relaxed way and speed up later when they realize that not enough time is left. So, it would be better if you're aggressive since the beginning, think and act fast and don't lose out a single second. However this shouldn't be at the cost of accuracy. For the time of test you should be fully merged and avoid distractions.

- Many candidates plan to review their answer before submission of the paper only to later realize that they are not going to find time for that. Review may be thought of in case of one or two questions where you've serious doubts about the accuracy of your answer. Otherwise it'll be better if you mark your options considering them to be final.
- As there is no interview for the position of assistants, your scoring high in the main examination can be instrumental in your selection.
- While reading a question you should focus on what exactly is sought in the answer. In every section the nature of questions is obviously different and require differentiated approach to answer. For example format of questions in language section and reasoning will differ significantly.
- Most of the question will be in the format of 'which one is correct' where you'll be required to find the answer which is true or correct. Also in few question you may have to find the differing or odd element. Such question require extra care in answering.

Numerical Ability: As the term suggests this section will have questions relating to numbers. You'll have question relating to addition, subtraction, multiplication, division, percentage, ratio, fraction etc. In most of the cases you'll be required to make multiple operation in a single question. You need to have thorough understanding of arithmetical formulae and BODMAS.

For numerical ability your preparation may be based on an arithmetic book prescribed for SSC (CBSE/ICSE/state/ any other boards).

General preparation strategies

Candidates should first understand the test pattern and type of questions likely to be asked. For this they should go through the previous year's question papers. There hasn't been any significant changes in the examination pattern in past couple of years. Candidates objectively need to assess which are their strong or weak areas.

For example someone may be good in quantitative aptitude but weak in reasoning. Try to understand where you lack - is it because you don't understand the concepts or because of no/less exposure to particular test or type of questions? This assessment should be the foundation of converting your weak areas into strengths. Of course, weaker segments will require more time for preparation.

You may buy a banking examination preparation guide which covers the test syllabus. You need to practice a lot. Initially it may be without any time restrictions but later it's better to check your speed in solving a paper. Mock test papers are available in guides and practice booklets. If you search on the internet, you'll easily find inputs helpful for banking examinations including the RRB examination. Such information consists of explanation of test pattern, mock questions, sample test papers and hints for preparation. However in these times of increasing cybercrimes, avoid sharing your personal data unnecessarily and keep away from fake websites.

After each practice analyse your performance, learn from your mistakes and move ahead. Continuous practice is the key for your success in this examination. Since the examination is conducted online you should be quick in using key board and mouse.

RRBs are good for long term career if you want to work in a limited geographical area. Working experience in RRBs may help you to find further career opportunities in banking and finance.
